1500 x 750 x 580

The Perfect Fit for your HDB/BTO

Cut and Seal Bathtub

Who is it suitable for?

- If you are renovating
- If you do not want gaps between your bathtub and bathroom wall

What are the advantages?

You do not need to erect a wall or have tiling or order to install the bathtub. This series of bathtub is cut-to-size on-site to ensure a perfect fit between your walls and the edges that come into contact with your walls are sealed with silicone. If you move house one day, simply cut through the silicone to bring or move the tub with you. There will also be no damage to the flooring since there was no tiling involved.

FOR THOSE WHO WANTS A PERFECT FIT

Enhanced Love and Safety

Hera Bathroom has partnered with Speco to enhance their products with advanced antimicrobial protection, significantly improving safety and hygiene to protect your family. Speco, a certified B Corp, is committed to sustainability and eco-friendly innovations. Their technology inhibits the growth of harmful bacteria and microbes, ensuring a cleaner bathroom environment. This collaboration underscores Hera's dedication to your health and peace of mind while being environmentally conscious.

Advanced Green Antimicrobial Protection:

Eco-friendly protection, free from heavy metals, against harmful bacteria and microbes.

Enhanced Safety and Hygiene:

Actively inhibits the growth of bacteria, mold, and mildew, reducing the risks of cross-contamination and the spread of germs.

Commitment to Health and Environment:

Reflects Hera's dedication to customer well-being and environmental responsibility.
